

SHEIK MOHAMED SABEER

.NET Full Stack Developer

PROFESSIONAL SUMMARY

.NET Full Stack Developer with experience developing enterprise web applications, real-time monitoring systems, and offline-first synchronization solutions using ASP.NET Core, React, Entity Framework Core, SignalR, and MySQL. Skilled in backend API development, frontend integration, database design, and deliver production-ready software solutions.

EXPERIENCE

Trainee Software Developer, 09/2025 - 05/2026

Risolutor Technologies, Tenkasi

- Developed and maintained enterprise business applications using ASP.NET Core, React, Entity Framework Core, and MySQL.
- Designed and implemented backend APIs, business logic, and database operations for production modules.
- Collaborated with team members to implement Agile methodologies, improving project delivery timelines.

PROJECTS

Employee Monitoring Platform | End-to-End System Development

Technologies: .NET, MAUI, Windows Services, SignalR, SQLite

- Developed a complete employee monitoring ecosystem consisting of installer, monitoring, synchronization, and update management services.
- Built a MAUI-based installer application with license validation, silent installation, auto-start configuration, and automatic recovery capabilities.
- Implemented SignalR-based real-time communication enabling instant monitoring updates between Monitoring service application and API integration application.

Field System Management | Backend API Development & Frontend Integration

Technologies: ASP.NET Core, React, Entity Framework Core, MySQL

- Developed invoice management module used for automated invoice generation and document downloads.
- Developed thread-safe sequential identifier generation using Singleton architecture and concurrency control mechanisms.

Built a dynamic form management system with runtime template creation and database-driven schema generation.

EDUCATION

B.E, Computer Science, 06/2025

Sardar Raja College of Engineering, Tenkasi

First Class - GPA: 7.87/10

SKILLS

- C#, JavaScript
- ASP.NET Core, REST APIs, EF Core
- MySQL
- React, HTML, CSS, Bootstrap
- OOP, SOLID Principles, Dependency Injection, LINQ, Async/Await
- Swagger, JWT Authentication, JSON, SignalR, RabbitMQ
- WinForms, MAUI, Windows Services
- Git, GitHub, Visual Studio, VS Code, Postman

INTERNSHIP TRAINING

Java Full Stack Development – Uniq Technologies

Feb 2025 – Jul 2025

Completed comprehensive training in Java, Spring Boot, MySQL, REACT.JS, HTML, CSS, JavaScript, and RESTful API development.
